# State digital transformation - Mobile app City of Liepāja

The "Platinum Mouse" award has been presented since 2007. Its purpose is to identify the most successful digital solutions created in Latvia, to evaluate the best project authors and developers, as well as to promote understanding of the meaningful use of technology - in society, business, administration and education.

In the category State digital transformation, in the section Services, the municipality of the state city of Liepāja entered the finals with the Liepāja city mobile app
